Welcome to Barcelona!

In 1992 Barcelona hosted one of the most successful Olympic Games ever organized, and since then the city has grown in the World as a top business, cultural and academic city in the planet. Barcelona has been chosen to host the International Summer School in Maritime Law organized by Abat Oliba Barcelona University and the London City Law School.

The Summer School will equip those who attend with a detailed insight into issues of current importance in the areas of shipping, land transport and European law. It is designed to provide a major learning resource for lawyers and business people. It will recruit young professionals from all over Europe and the rest of the world in a truly international environment.

The Summer School will offer an invaluable opportunity to learn from distinguished academics, legal and business practitioners while establishing future contacts and friendships. Participants will not only be involved with academic work, but also explore the city's cultural and historical heritage, including our networking event "Barcelona Skyline Drinks".

Barcelona Summer School in Maritime Law will be an event you do not want to miss!

Aims and Objectives

This Summer School will equip those who attend with a detailed insight into issues of current importance in the areas of shipping, land transport and European law. It is designed to provide a major learning resource for lawyers and business people. It will recruit students from Spain and the rest of Europe but also internationally.

The programme is designed to meet the specific needs of professional lawyers who may be seeking to expand their practice in the field of Maritime Law, and also to meet the complementary needs of shipping executives who have to understand the complex legal issues which context their commercial enterprise.

The Teaching Programme

The rationale of the course is that the Law of England and Wales is the legal system which provides the basic reference underpinning all International Shipping Law, and is the universally preferred jurisdiction in respect of maritime disputes.

A full balance of academic, legal and commercial expertise is represented in the composition of teaching team, whose members are drawn from the Law Departments of leading British universities and Law firms which specialise in Maritime, Shipping and Transport Law.

In addition to lecture presentation and seminar discussion, teaching arrangements will include role play. These elements are designed to enable students to apply their course learning immediately in their current professional situations. Students will also receive an hour of individual consultation with the organising tutor to enable discussion of the personal and career applications of the learning programme.

The Learning Atmosphere

The Summer School will offer participants the chance to meet like-minded professionals in a sympathetic but nonetheless demanding academic atmosphere in which valuable professional knowledge will be gained.

English is the language of instruction, but all the teaching units will be supported by detailed notes prepared to assist participants with the seminar work, and with later professional reflection. As acquisition of business English is often accelerated when students can express new concepts equally in their native tongue, it may be possible for the seminar discussion to be held in a language other than English where four or more students request it.

Dr. Corres will take care of the maritime economics sessions in the Summer School, sharing its expertise in the field gained with its professional relationship with the Union of Mediterranean Shipowners, Intertanko, the International Union of Maritime Underwriters, the Union of Greek Shipowners and the International Chamber of Shipping.

Invited Lecturers:

Mr. Angel Arnaudas, Director of Autochartering S.A., leading Spanish Shipbroker

Ms. Concha Hill, Maritime Law Professor, University of Barcelona

Mr. Ignasi Pinart, Director at Hutchinson Logistics

The Course Units

Unit 1: The Common Law of England and Wales

An introduction to the Common Law, and particularly to the doctrine of precedent, which is found in the legal systems of (among others), England and Wales, the USA, Canada, Australia, and much of Africa and Asia. We will also look at some issues of Tort and Contract Law.

Unit 2: Admiralty Law and Practice

We will look at some of the core areas of Maritime Law. There will be a focus upon Admiralty practice, which will include an examination of ship arrest, (including sister ship arrest) and maritime liens. This unit will also develop an understanding of salvage issues.

Unit 3: Freight Forwarding, Logistics and Multimodal Transport

This unit will provide an introduction to the legal issues concerning freight forwarding and logistics operations with particular reference to their legal classification. The types of multimodal transport and the problems that arise in the sector.

Unit 4: Carriage of Goods by Sea & Cargo Claims

This unit will examine issues surrounding contracts of affreightment, principally time and voyage charterparties and bills of lading. This will include current developments in the Hague/Visby rules and the recent Rotterdam Rules.

Unit 5: Maritime Economics

This part of the Summer School will give consideration to Maritime Economics and all the different markets that form the economic organisation of the Shipping Industry.

Unit 6: The International Law of the Sea

This unit will provide delegates with an opportunity to discuss the issues of oil pollution from ships and, more generally, the shipowner's ability to limit liability. The module will examine the international conventions that regulate these matters. This is an area of great practical importance to shipowners and charters alike.

Unit 7: Marine Insurance

We will examine how the insurance market operates in the industry and which is the current status of the law regarding shipping risk cover and that related to P&I Clubs.

Unit 8: London Maritime Arbitration

Most maritime disputes are dealt with in London, under English law, and by use of Arbitration. It is a must unit for all those involved in the shipping disputes resolution. We will look at general arbitration concepts and focus on maritime arbitration and the Rules of the London Maritime Arbitrators Association, and other institutional rules, such as the LCIA or the ICC.

Unit 9: Port Terminals

This year the largest port terminals operator in the world, Hutchinson Ports, will join the us at the Summer School to tell us all about the practical aspects of port terminals.

Student Learning outcomes

By the conclusion of the Summer School delegates will:

- 1.** Have gained practical knowledge of several expanding and potentially lucrative areas of Maritime and Commercial Law.
- 2.** Be able to identify complex legal issues that arise in commercial situations.
- 3.** Be able to analyse these problems, and provide suitable solutions.
- 4.** Have gained confidence in arguing their cases and in defending the positions that they have taken.
- 5.** Be able to research the answers to legal problems that they will face in the future.

Barcelona Skyline Drinks

Included in the tuition fee you will be able to access the best bar in Barcelona at the top of the iconic Tibidabo Mountain. An excellent opportunity to chill out and network with all other attendees.

CERTIFICATE

All those who successfully complete the programme will be awarded a Certificate of Achievement issued by the City Law School, The City University, London.

The City Law School is one of the few universities in the world to offer a dedicated LLM in Maritime Law. This degree is taught by leading academics with commercial experience also offering a strong input by current practitioners both from England and abroad. The location of the Law School in the City of London itself means that it is very convenient for the City institutions and the Royal Courts of Justice and the wider cultural and social experience that London has to offer.

The Abat Oliba CEU University is a leading university in Spain, the first law school in Barcelona. The University academic programme is built upon a solid foundation between the community of its students and the academic staff and the excellence of the goals to be achieved by all students. The University offers to all its students a very close connection with the leading companies and law firms in Europe, and it is the perfect host for all those students coming from abroad to one of the most vibrant and lively cities in the world.

Language requirements

As noted, the course will be conducted through the medium of the English language. Students will however be encouraged to work in small groups, and these may be conducted in other languages by the agreement of the participants.

Because of the technical nature of the subject matter of the Summer School it is advisable that participants should feel comfortable in working in English, we therefore suggest (as a gauge of competency) that they should have achieved a standard of understanding equivalent to approximately 6.0 in the IELTS test of English or 550 in the alternative TOEFL test.

Venue

The course takes place at the Abat Oliba Barcelona University, c/ Bellesguard 30, Barcelona. Details of its exact location can be found at www.uao.es or in the following Google Maps' link: <http://g.co/maps/b3yfd>
